COMPETITION FORMAT

We will have two (2) different competitions where we will use two (2) different social media platforms.

1. Online Flair Competition on Instagram

RULES

The competition has **two (2) rounds** for both female and male competitors:

- Qualification Round
- Final

After the registration closes (March 31) you will have two (2) days to work on your video based on the rules you find here. We know that it is not easy to find a place for flair now, this is why we would like to give you enough time to come up with a great solution.

PREPARATION PERIOD: APRIL 1-2

Important: Everybody has to respect and follow the rules and guidelines of her/his country/city of residence. We want you all to be good examples to the world during these difficult times.

We ask you to follow and like the following social media platforms:

- Flairventure Facebook Page (<http://facebook.com/flairventure>)
- Flairventure Instagram Account (<http://instagram.com/flairventure>)
- Flairsupply Instagram Account (<http://instagram.com/flairsupply>)

We created a special, Flairsupply Quarantine Challenge Facebook badge. Please make sure you use that to promote the competition and share positive vibes.

Rules and guidelines are subject to change at the discretion of the competition organisers.

Qualification Round

- **We ask you to create a 30-second long video,** where you show your best flair skills with your favourite music.
- The video has to be created for this occasion, so you are not allowed to use older videos. We want you to work on this while you have to stay home. 😊

- You can use real or plastic bottles. You can use liquid if you want, but you don't have to.
- You have to show the text #flairsupplyquarantinechallenge in your video. It can be written down or printed out on paper, it can be on a phone or a tablet screen, on your t-shirt, on a tv screen, on your bottles, shakers... **BE CREATIVE!** We will give you some help at the end of this document, like a bottle sticker or hashtag sign you could print out or put onto your screens as an alternative.
- Please add the music after you have recorded the video. Don't use Instagram's function to add the music when you upload it, because in some countries it's not available, and your video might not be great without the music.
- Make sure you **use PORTRAIT format** because videos will be published also in Instagram Stories.
- Social media platform editing options are allowed like filters, camera effects, slow-motion. But you are not allowed to use cuts, as we want to see one whole sequence (just like during live competitions).
- The video cannot contain any graphic, sexual or controversial content. Violation of this rule will lead to disqualification.

VIDEO UPLOAD

You have to upload your videos two times, so make sure you follow these steps. On Flaircomp.com we need to have ALL THE VIDEOS, so judges can check them and make a fair and professional decision.

We also want you to promote yourself on your personal Instagram account, so we ask you to upload the video also into your Stories.
